Toshiba JSW Power Systems Transports Large-scale Generator Stator to Kamarajar Port through the New Access Road constructed by Tamil Nadu State Government Department

Chennai – Toshiba JSW Power Systems Private Limited (TJPS), a Joint venture between Toshiba Corporation in Japan and JSW Group in India, today announced that the company successfully transported its large-scale generator stator, weighing around 400 ton to Kamarajar Port through the newly constructed access road by Tamil Nadu State Government department. The large-scale generator stator is shipped to Toshiba Keihin Product Operations in Japan from Kamarajar Port for operational testing.

The new access road connecting to Kamarajar port is about 15km long and bears a strong structure for transportation of heavy products like large-scale generator stator. Tamil Nadu State Government department has also constructed four new strong bridges on the road including Attipattu Rail Over Bridge.

Mr. Yoshiaki Inayama, Managing Director of TJPS, said “Tamil Nadu Government is continuing to create a conducive business environment for sustainable infrastructure growth and various reforms have been introduced to modernise the manufacturing ecosystem in the state. The construction of the new access road agreed under the memorandum between Toshiba and Tamil Nadu State Government, will be fruitful for many companies based in the vicinity. I express my heartfelt appreciation to all the support received from Tamil Nadu State Government and the parties concerned.”

“India being a key manufacturing hub and export base for us, the new access road to port is very significant for us. With manufacturing and supplying of turbines and generators, we will continue to contribute to the growth of industries FOR THE NEXT INDIA,” **Mr. Inayama added.**
